Very Simple Screenshot Tool Ver 3.6

However, with this software installed on your Windows PC, you may take a screenshot of a any window or program on your desktop. It's similar to Click and save button use. And no need to install any other program. How to take screenshot with Ver 3.6? 1. 1. Open the software and type the target app name which you want to show in the screenshot and click "Capture Screenshot". 2. 2. Click the "Screenshots" and save the screenshot as a png or gif file into the desired folder with the same name as that of the target app. Note: 1. 1. The target apps will be printed into the same folder which you save the screenshots. 2. 2. If you want to print only the contents of the target window, you don't need to capture the entire window itself. 3. 3. You can capture only part of the target app, such as part of the form or only part of the text inside it. 4. 4. You can choose to capture as animated gif which

contains all or multiple screenshots taken at one time. This is especially important if you need to provide info. regarding the target app for other software. Below, you can learn how to take screenshot in Windows 10. The process is similar to that in Windows 7 and 8/8.1.

1. Open the screenshot taking app and press **Ctrl+Shift+S** to quickly take the screenshot.
2. Press **Ctrl+Shift+A** to select multiple screenshot area and then press **Ctrl+Alt+Shift+S** to combine the multiple screenshot into one image. And then press **Ctrl+Alt+Shift+A** to select multiple screenshot in combined image, then press **Ctrl+Shift+S** to save them to the system tray.

The screenshots taken from different app in combined image or folder can be easily identified by the program name.

1. You can take the screenshot of any window and even print them into the folder which you set.
2. Screen capture feature is not restricted to the right or left button. You can also press **Alt+PrtSc** button to take the

screenshot quickly. 3. 3. You can choose to capture by the screenshot file or take the screenshot of its full window. 4. 4.
